THE WEATHER.

Forecast For Today.
For New England: Fair, colder Thursday; Friday increasing cloudiness; moderate north and northeast winds.

Prediction from the New York Herald: The outlook for tomorrow is generally clearing and colder weather, with westerly winds, though there probably will be rain in the morning along the northeastern coast, while fair weather and a further drop in temperature will return on Friday.

Comparisons.
Prediction for Wednesday: Fair and warmer.
Wednesday's weather: As predicted.

Six hours after high water it is low tide, which is followed by flood tide.

GREENVILLE NEWS

Death of Miss Sarah M. Benjamin After Long Illness.

After an illness of ten months with dropsy, Miss Sarah M. Benjamin passed away in her late home at 267 Central avenue about 8 o'clock Wednesday morning. She was the daughter of Nathan Benjamin and Hannah (Cook) Benjamin, and was born in Preston March 23, 1838. She passed nearly all of her long and useful life in Preston, but for the time lived in Greenville, where she came to reside about nine months ago and had resided here since.

Mrs. Benjamin is survived by two sisters, Miss Emma Benjamin and Miss Ellen Benjamin of Central avenue. She also leaves six nephews, William, Frank, Henry and Albert Benjamin of Preston, Henry Bushnell of Bean Hill and Frank Bushnell of Orono, and two nieces, Miss Elizabeth Benjamin and Miss Mary Benjamin of Mystic.

Personals and Notes.

Entertainment and dance in Union hall tonight. Cadillac orchestra—adv.

George Natzel and Miss Helen Berkoff were recent visitors in Voluntown.

The Tigers met and defeated the Preston team Tuesday afternoon by the score of 9 to 0.

Mrs. James Connors of Prospect street has returned after spending a week with relatives in Boston.

Mrs. Kendall and daughter have returned, after spending several weeks with relatives in Delaware, N. J.

Miss Beatrice Buteau has returned to her home in New York, after visiting relatives on Central avenue in Wallingford and Baltic.

TAFTVILLE

Pool Match Between Local Clubs Excites Much Interest.

This (Thursday) evening a pool match will be played between members of the Lincoln club and the Ponchartraine club. The contest will take place in the pool room of the Lincoln club and will be watched by an interested audience comprised of members of both clubs. During the evening refreshments of sandwiches, cake and coffee will be served. The men who will take part in the contest will be as follows:

Lincoln club—William Brown, Alphonse Morin, Henry Mercer and Charles Frost.
Wheel club—John Herd, William Kenhall, Michael Malone and George Myers.

A prize will be awarded the winning team.

Second Soccer Team.

The Taftville Soccer football team is going to try to organize a second team, and Assistant Manager Frank Tiersen will hold a practice game for candidates who wish to play on the team. The practice game will be played Saturday afternoon just before the regular game starts. The Lorraine of Westerly will arrive in Taftville Saturday afternoon and will line up against the Taftville team. An interesting and exciting game is counted on, as this is the only team that Taftville has not as yet beaten. The lineup for the local team will be as follows: Goal, Hugh Flinckson; R. Robert Wilson, Greenhalgh; W. Wilfred White, Richard Pilling, Frank Pierson; forwards, Alexander Flinckson, Robert Pilling; center, F. Knowles. The game will be called at 3.15. Jesse and James Greenhalgh will be the referees.

Many Try Voting Machines.

Many voters took advantage of the opportunity to familiarize themselves with the use of the new voting machine. The machine was in operation at the demonstration from Saturday afternoon until Wednesday evening. The registrars, who had charge of the demonstration, willingly showed all who came to the hall how the machine is used. The new method has gained in favor with the voters in this district, and it is thought, much quicker and a great improvement over the old method of marking a ballot sheet.

Joseph Landry of North A street has moved to CHH street, Norwich.

George Thomaston spent Wednesday with his parents in Willimantic.

Miss Mary Gayney of the White Mountains is at her home on North A street for several days.

Wednesday morning Albert Stone and P. Gorman caught five eels. The catch tipped the scales at over ten pounds.

John Clark Robert Bottomley, Wilfred Viville and E. Milette were on a hunting trip to Plain Hill Wednesday evening.

Ansel Trombeau has returned to his home on Norwich avenue, after a stay of six weeks with his brother in Montreal, Canada.

Effective Combinations.

The combinations in coat development are particularly swifter.

One admired design shown Wednesday was of mink-dyed marmot, with elegant big shawl collar of softest and richest beaver.

Beaver was employed again on a very smart model in natural pony. A mink-dyed coat had a long, rolling collar and deep cuffs of handsome northwestern beaver.

Elegant in every detail was a coat of Hudson seal, its collar and cuffs of rich Persian lamb. Another in Hudson seal had a novelty collar of civet cat, deep cuffs and an effective border of striped Hudson.

Less expensive, of course, but a good design, was a coat of natural Russian lamb, smartly finished with self collar and cuffs. A caracul coat with skunk collar and cuffs was also a favorite in the moderate priced models.

Wednesday's sales were surprisingly big, but the display has lost none of its attractiveness and the assortment offers rare opportunities for women wise enough to realize that the price of furs is much lower now than it will be a month later.

Improve the hints offered in The Bulletin's advertising columns today! American designs in fur coats and seals are at your disposal, and all priced right!

ONE MILLION SHAD FRY RELEASED

Sent on Their Way to the Sea From Johnstown Pond in Lyme—Swam Off Hopefully Towards the Sound—Will Return in Three Years—Grew Well in Lyme Pond Since Spring.

The members of the fish and game commission released about one million shad fry from the retaining pond at Johnstown, town of Lyme, Monday afternoon. Last spring the commission received from the United States government shad fry which were placed in the pond. The fry thrived remarkably well, and when they were released Monday afternoon they were large and healthy. They proceeded at once down the river on their way to the Sound. They will return to the waters of their infancy in the course of three years to spawn. They will be then full grown and fit to tempt the appetite of the most fastidious epicure. Perhaps it is just as well to say that not all will return. Thousands of them will have fallen victims to the vicissitudes which beset fish life. But enough will return to pay for the trouble of protecting them during the months they try to grow. It is not known exactly where they go after leaving the Sound. It is believed that they go to deep water a few hundred miles south. But this is only a surmise. The scientists who have watched their migrations and habits are not in accord as to where the shad spend the three intervening years between the time they leave the protecting waters of Johnstown river and their return to the Connecticut river.

The commission is well pleased with the success of the work at the retaining pond at Johnstown. Formerly the United States government was generous in its supply of shad fry to Connecticut, but owing to the demand made on it for southern waters it has not been able to furnish fry to this state for half a dozen years. The present commission was able to induce the government to supply a million shad last spring. The cost to the state was only that for transportation from Deep River, where the fry were left by the government, to Johnstown, a matter of \$3 or \$4. The result is much more satisfactory than if the commission were to attempt to hatch out fry in the hatchery on the Farmington river. It would cost the state about \$1,000 to hatch out 400,000 shad fry, while a million were secured from the national government at an expense of a few dollars.

The commissioners continue to receive gratifying reports of the shooting this fall. It is evident that the efforts which have been made to protect game have proven successful and that with a continuance of the care for a few years longer it may be reasonably expected that this state will be a better state for game.

OFFICERS ELECTED

BY COUNTY DENTISTS
Dr. Clarence Brooks of New London for President—Dr. J. M. Shay Vice President.

At the annual meeting of the New London County Dental association, held in New London Tuesday night, Dr. Clarence G. Brooks was elected president and Dr. J. M. Shay was chosen vice president of the association. The meeting was held at the Mohican hotel, where the annual dinner was served at 8:30 o'clock in Landlord Walker's best style. About 15 were in attendance at the meeting. Immediately following the dinner, adjournment was taken for a brief time and the members went to the state armory to hear Gov. Hiram Johnson's address at the progressive rally.

Upon their return to the hotel, the business meeting was held, at which election of officers was the principal business. The officers for the year were: President, Clarence G. Brooks, New London; secretary and treasurer, Owen J. Denney, Stonington; executive committee, J. H. Weeks, Stonington; Robert H. Lieberthal, Jewett City; Frank S. Norkett, New London.

Following the election, Dr. Weeks entertained with an informal talk on a collection of photographs of prominent persons.

S. N. E. T. CO. EMPLOYEES WILL BE INCLUDED

To Come Under Plan of Insurance in Sickness, Accident, Death or Superannuation.

Vice President James T. Moran of the Southern New England Telephone company, in a statement issued from New Haven, says that the employees of his corporation, as one of the operating Bell companies, will be included in the plan of corporate protection for employees, which is now being worked out by the board of directors of the American Telephone & Telegraph Co. It is hoped to put the plan into effect throughout the Bell system early next year. The scheme as outlined guarantees insurance in case of sickness, accident, death or superannuation.

THE SEASON'S FURS

Have Distinctively New Touches—The 1912-13 Muff—Pelts Which Lead in Fashion's Favor—Novelties at the Opening.

It may be warm now, but it isn't always going to be, was evidently the thought of the fur designers when they were at work on the opening of the season's furs. The 1912-13 muffs are essentially new, the bed being more elaborate and more conspicuous than ever before. In fact, in some models the fancy fur is so employed as to be so far behind the new designs as to be positively antiquated.

Then the fur scarfs, victorines, throws, etc., are as distinctively new as the muffs. The French designers have given them new touches, shapes, finish in heads, tails, tringes, combinations and ornaments that are most fascinating and different.

Gracful Coats.

While the coats are big and comfortable looking, they have nothing of the clumsiness of the old style models, but follow the prevailing straight line effects as to cut of skirt.

They are developed in all the most favored pelts, elegantly finished and exquisitely lined.

Beaver and mink take the lead in fur popularity, but Fashion approves Sitka fox, painted fox, weasel, Japanese cross fox, eastern and fox, mink, mink, American red fox, fine quality blue lynx, mink—which is French cross and closely dyed and a mole gray—raccoon and blue wolf. Rich Persian and the popular Persian paw continue good, and for young girls' wear there is natural cat and the dainty white seal and fox.

The combinations in coat development are particularly swifter.

One admired design shown Wednesday was of mink-dyed marmot, with elegant big shawl collar of softest and richest beaver.

Beaver was employed again on a very smart model in natural pony. A mink-dyed coat had a long, rolling collar and deep cuffs of handsome northwestern beaver.

Elegant in every detail was a coat of Hudson seal, its collar and cuffs of rich Persian lamb. Another in Hudson seal had a novelty collar of civet cat, deep cuffs and an effective border of striped Hudson.

Less expensive, of course, but a good design, was a coat of natural Russian lamb, smartly finished with self collar and cuffs. A caracul coat with skunk collar and cuffs was also a favorite in the moderate priced models.

Wednesday's sales were surprisingly big, but the display has lost none of its attractiveness and the assortment offers rare opportunities for women wise enough to realize that the price of furs is much lower now than it will be a month later.

Breaks a Cold, Opens Nostrils

Pape's Cold Compound cures colds and gripe in a few hours.

The most severe cold will be broken, and all gripe misery ended after taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel all the disagreeable symptoms leaving after the very first dose.

The most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress vanishes.

Take this wonderful Compound as directed, with the knowledge that there is nothing else in the world which will cure your cold or gripe and any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—contains no quinine—belongs in every home—accept no substitute. Tastes nice—acts gently.

brother, John Hubbard of Sturtevant street.

Mrs. Mary Clark of Westerly left this week for South Manchester after visiting her niece, Mrs. Sara Snow and Miss Agnes Thorp of Sturtevant street.

Mrs. Susan Palmer and Miss Myra Adams of Plainfield, who are visiting Mrs. Morgan of East Great Plain, called on friends on Bliss place Wednesday.

SICK DAUGHTER NOW WELL

Mrs. C. Cole Tells How Her Daughter Was Restored to Health by Lydia E. Pinkham's Compound.

Fitchville, Ohio.—"I take great pleasure in writing to thank you for what your medicine has done for my daughter."

"Before taking your medicine she was all run down, suffered from pains in her side, could not walk but a short distance at a time, and had severe pains in head and limbs. She came very near having nervous prostration. She had begun to cough a good deal and seemed melancholy by spells. She tried two doctors but got little help."

"I cannot find words to express my gratefulness for what Lydia E. Pinkham's Vegetable Compound has done for my daughter. She feels and looks like another girl since taking it, and I shall always feel that I owe you a great debt."

"You can use this letter for the benefit of others if you wish, as I shall always recommend your medicines for female troubles."—Mrs. C. Cole, Fitchville, Ohio.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Heed This Advice.

Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.
